Fund manager's report

- Emerging markets ended mixed in August. Asia succumbed to a sell-off, led by a sharp fall in China, on heightened fears that a slowdown in bank lending will curb growth in the mainland.
- Latin America and emerging Europe, however, rose on an improved outlook for exporters. Investors were heartened as a number of economies, including Germany, France, Hong Kong, Taiwan and Israel, expanded in the second quarter after earlier contractions, while growth picked up pace for the first time since 2007 in India.
- Israel raised its benchmark interest rate unexpectedly, betting that recovery was underway. But data elsewhere remained weak. Central banks, including those in Turkey and South Africa, cut rates further as inflation fell, whereas others, such as Mexico and Korea, left rates unchanged.
- In politics, the Taiwan government came under fire for its delayed response to typhoon Morakot, which killed hundreds. South African police clashed with more than 3,000 soldiers demanding higher pay.
- During the month, we added to South African retailers Massmart and Truworths on price weakness.

Important information

The CPF interest rate for the Ordinary Account (OA) is based on the 12-month fixed deposit and month-end savings rates of the major local banks. Under the CPF Act, the Board pays a minimum interest of 2.5% per annum when this interest formula yields a lower rate. In addition, from 1 January 2008, the CPF Board will pay an extra interest rate of 1% per annum on the first \$60,000 of a CPF member's combined balances, including up to \$20,000 in the OA. From 1 April 2008, the first \$20,000 in the OA will not be allowed to be invested under the CPF Investment Scheme.
