Fund manager's report

- Local equities rose in February, lifted by sustained liquidity. Investor sentiment was further boosted by the government's pro-growth Budget.
- The government kept stimulus measures in place but is committed to trimming its deficit. It maintained its spending focus on infrastructure, the poor and the rural sector. The central bank may issue banking licences.
- Food inflation showed no signs of easing, with prices rising again in the first two weeks of February.
- The telecom authorities will hold its long-delayed auction of third-generation mobile phone spectrum in early April, a move that is expected to accelerate an already rapid expansion of the domestic mobile industry.
- In portfolio-related news, Bharti Airtel is in talks with Zain to buy most of the Kuwaiti telco's assets in Africa. Tata Power and Korea East West Power will jointly operate power generation assets in Asia and Africa.
- There were no major portfolio transactions over the month.
